USB Midi Controller

	SPIN (for MAC)	Spin is an all-in-one bundle of digital DJ hardware and software, offering total control to mix, scratch, and play music as a DJ would right at your fingertips. The included software, djay seamlessly integrates with your iTunes library and transforms your Mac into a full-blown DJ system. Whether for the beginner or seasoned pros alike, plug Spin into your Mac and you become a DJ. For MAC	199,00	239,00 EUR
	TYPHOON (for PC)	TYPHOON is an all-in-one bundle of digital DJ hardware and software, offering total control to mix, scratch, and play music as a DJ would right at your fingertips. The included software, djay seamlessly integrates with your iTunes library and transforms your Mac into a full-blown DJ system. Whether for the beginner or seasoned pros alike, plug Spin into your Mac and you become a DJ. For PC NOTE : Please check the specifications of your computer before purchasing Typhoon.Typhoon supports Intel Core Duo, but does not support Intel Core i series, Intel Celeron, Atom and AMD CPU.	199,00	239,00 EUR

	VCI-100 Silver & Black	VCI-100 USB MIDI & Audio Controller The VCI-100 is a highly professional MIDI controller that has two jog wheels built with sensor and control technology straight from our turntables. One of the many additional features found on the VCI-100 is a curve generator that controls the crossfader curve giving the DJ true professional mixer features on this MIDI controller, even if the software being used doesn't allow for curve control. The VCI-100 is built with the highest quality mechanical parts and state of the art PCB technology guaranteeing accurate and stable operation. - 90 parameters of various software are assignable to the VCI-100's control section via USB transmitted MIDI signals.- The JOG wheel is constructed with a high-resolution pulse sensor; touch sensor and acrylic platter mechanism. With this combination, operations such as pitch bending, scanning and scratching can be performed with speed and accuracy. - Every crossfader motion of the VCI-100 is digitally converted and sent to the software. Curve settings are generated with the built-in CPU, which allows you to adjust the crossfader curve to your preference whether or not the software you use has curve control. - The DATA SEND LED and JOG wheel SENSOR LED provides clear visual of the current status to assist in an authentic play mode in real time.- Operates both with USB bus-power and an exclusive power adaptor. (For best performance and stable operation, please use the power adaptor if the computer's power capacity is low or if using a USB hub)- There are no issues if you don't have software to operate. TRAKTOR LE (Native Instrument Inc.) is bundled to the VCI-100 with exclusive control assignment files.- The VCI-100 provides simple plug & play working with Apple and Windows operating system computers.- Compatible with all software that allows MIDI control assignment. Samples of MIDI control assignment files for each software will be available at www.vestax.com .- The metal body is almost the same size as a standard Laptop, thin but highly durable, compact and convenient for transportation.DIMENSIONS: 360(W) x 35(H) x 252(D) mm (Excluding knob height)	344,00	413,00 EUR

E C P B R	Model	Description	EUR Netto (ex. VAT)	EUR + 20% DDS (incl. VAT)
	NEW VCI-300 Mk2	VCI-300 USB MIDI & Audio Controller- HIGH RESOLUTION CONTROL - The VCI-300 can control more than 90 parameters and functions of the included Serato software with high resolution MIDI signals sent via USB. The pulse resolution of the JOG wheel and pitch control fader is 4 times higher than the VCI-100 and provides precise control of each function. The pitch control fader also shares the same high quality fader parts of the input fader for advanced operability.- SUPERB AUDIO CHARACTERISTIC - The built-in audio interface carries a Audio Codec IC with superb audio characteristic, generated by a delta-sigma modulation 24 bit stereo D/A-A/D converter. Audio connection includes 1 stereo input, 1 MIC input and 2 stereo output (Master L/R, Monitor L/R).- LEVEL INDICATION - A 12 level LED L/R indicator is set in the center of the top panel to monitor sound levels.- FILE CONTROL - Audio files in the software library can be easily selected and controlled with the CRATES / FILES / BROWSE key and the cursor switch inherited from the VCM-100.- EMERGENCY THRU SWITCH - The Emergency Thru Switch located on the rear panel is a countermeasure where you can use the VCI-300 with the provided ITCH software or without the computer connected if you simply want to play music from your external CD or MP3 player. The ITCH software reads music from your iTunes library or the Serato library you use for Scratch LIVE, making it the perfect device for recreational or professional DJ's.- ADJUSTABLE JOG WHEEL TORQUE - The torque of each JOG wheel can be adjusted to prevent them from moving from low frequency feedback and altering the pitch when using the VCI-300 in such places like clubs.- FADER CURVE CONTROL - The fader curve of each fader can be adjusted to the preferred characteristics for long mixes, scratching and any other style.	579,00	695,00 EUR
	VCI-300 Custom	Custom Jog Wheel for VCI 300	41,00	49,00 EUR
	NEW VFX-1	VFX-1 EFFECTS CONTROLLER A simple and well laid out accessory controller to the VCI-300, the Vestax VFX-1 controls 2 independent FX units. The VFX-1 effect midi controller expands the possibilities of mixing with the perfect digital DJ system VCI-300+Serato ITCH. - Effect Channel select switch. - Efficient parameter control with the high grade ALPS 27 rotary volume. - New soft touch push switches. - Mix with endless opportunities and expand the 300 to the ultimate DAW / mixer / controller.	199,00	239,00 EUR
	VCM-100	VCM-100 USB MIDI & Audio Controller- 60 parameters of various software are assignable to the VCM-100's control section via USB MIDI IN/OUT. - The DATA SEND LED provides clear visual of the current status to assist in an authentic play mode in real time. - Monaural 4 in/ Stereo 2 out (Master out L/R, Monitor/Booth out L/R), Headphone output. The VMC-100 provides a high definition sound, thanks to the audio codec IC designed with a built-in hardware sample rate converter, delta-sigma conversion 20bit stereo D/A converter and 18bit stereo A/D converter. - Support for ASIO 2.0, CoreAudio and MME / WDM, MAYA44 USB is compatible to all major music and DJ and DAW applications. - ESI(Ego systems Inc) designed ASIO driver applied for its proven high reliability.DAW application software and DJ application software work with the driver at a valiant low latency rate and high performance. (Windows will identify the VCM-100 as a 2in2out USB audio device when using the standard Windows WDM driver. Use the ASIO driver when using multi input/output with DTM application software.) - The VCM-100 provides simple plug & play features working with Apple and Windows computers. - The power source is selectable from USB bus-power and the exclusive power adaptor(not included). (For best performance and stable operation, please use the power adaptor if the computer's power capacity is low or if using a USB hub) - There are no issues if you don't have any software to operate. TRAKTOR LE (Native Instrument Inc.) is bundled to the VCM-100 with exclusive control assignment files.- Compatible with all software that allows MIDI control assignment. 3 versions of firmware can be selected to have the best match with the software. Each software's samples of MIDI control assignment files will be available at www.vestax.com soon. - The compact metal body is thin but highly durable, and convenient for transportation.	344,00	413,00 EUR
	RK-100	Laptop Rack Table for VCM-100	66,00	79,00 EUR
	NEW VCM-600 silver & black	VCM-600 USB MIDI & Audio Controller- 160 parameters of various software are assignable to the VCM-600's control section via USB MIDI IN/OUT. - LED Panels placed on each side of the VCM-600 provide clear visuals to DJs by illuminating the top panel- High quality input faders and pitch faders from the VCI 100 and PMC 580 are also applied to the VCM 600 for advanced operability- Simple plug & play activation with Apple or Windows operating systems	563,00	676,00 EUR
	TUB-2	The Vestax TUB-2 is a USB Audio Interface developed for DJs. The Vestax TUB-2 converts audio input/output from various DJ equipment to computers, operates with USB bus power and doesn't require any drivers for connection with Windows and Mac computers. A simple yet incredibly effective way of linking your equipment to your computer.	75,00	90,00 EUR
	TUB-1	USB in/out Adapter for several Mixers AD/DA Conversion	63,00	76,00 EUR
	NEW TR-1 Kaito silver & black	TR-1 Kaito USB MIDI & Audio Controller- The Vestax TR-1 is a MIDI controller that sits in the middle ground between the DJ styled Vestax VCI-100 and the knob heavy Vestax VCM-600. The TR-1 is a MIDI controller for those who want to make best use of their software rather than adopting a more tactile and traditional DJ experience. It appears to be aimed at 4 deck users with a shift function to change controls. One of the more interesting products to surface out of the latest round of NAMM announcements is the Vestax TR-1, ostensibly the bigger badder brother of the existing VCM 100 controller. This thing looks like a rugged, installation quality mixer with big logical button/fader layout designed to really unleash the midi control/four deck digital sync capabilities of the new Traktor Pro interface. With a simple flick assignment between deck A/C and B/D this unit is looking like it will be the quickest, most fluid way to control every parameter on all four Traktor decks short of buying two dedicated controllers. Built in sound card I/O like the VCM-100 means this console is going to be a serious all-in-one controller for the adventurous Traktor user.	414,00	497,00 EUR
	VAI-80	VAI-80 AUDIO INTERFACE This little silver tank with analog control provides 4 input/output with RCA and XLR connection, along with headphone output and MIC input. Signals are sent through an analog EQ circuitry, adjusting level, quality and pressure of the sound. Vestax's own analog technology and experience combines digital data with analog quality, taking away the inorganic feeling when operating with computers. 4 RCA and XLR and mic inputs, 4 stereo and headphones (with level control) outputs, 2-band EQ and gain and volume controls per output, LED level meter, direct PA and USB connections. - Direct connection from computers to PA systems is enabled with the wide head room of XLR's. - Each stereo output channel has its own 2 band equalizer and level control. - MIC input and headphone output also has separate level controls. - Easy input/ output monitoring with the LED level meter.	152,00	182,00 EUR
	VAI-40	USB Audio Interface 4 in 4 out (RCA) with Headphone Amp (1/4 Inch) The Vestax VAI-40 Interface features 2 RCA stereo inputs, 2 RCA stereo and 1 stereo 1/4" headphones (with 60 mW amplifier) outputs, -10dBV unbalanced input and output level, USB port and is compatible with almost any music application like Cubase, Logic, ...	126,00	151,00 EUR
	VDA-1000 Mk2	The VDA-1000 is a digital power amplifier designed for the new generation of computer DJs. It is, highly portable and provides a powerful 1000W output suitable for sound systems of computer remix DJs, bedroom DJs, restaurant PA's and mobile DJs. The unique compact design and multi inputs expand to several applications. @With the latest digital amplification technology offering significant lower heat dissipation, the VDA-1000 has combined the warmth of analog sound and high power output within its compact and portable design.	285,00	342,00 EUR
